myMastercam Learning Hub

What is it?
The myMastercam Learning Hub offers 24/7 access to online courses and certification exams to anyone looking to begin a career in CNC programming or to current Mastercam users who want to sharpen their job skills. Regardless of skill level, there is a class able to strengthen user knowledge of most Mastercam products.

The Learning Hub features *free* online video-based courses in Core, 2D Mill, 3D Mill, Lathe, Multiaxis, and Mill-Turn, with content available in Imperial and Metric systems. The user is provided access to all the necessary parts files and documents required to complete the courses.

Benefits
Free Mastercam courses are available for Mastercam Core, 2D Mill, 3D Mill, Lathe, Multiaxis, Mill-Turn, along with many other free learning resources. You can log in using your existing myMastercam account credentials or create an account for free.

Titans of CNC Academy

What is it?

The TITANS of CNC Academy is an online platform developed by CNC experts offering project-based video tutorials on the fundamentals of CAD/CAM design and programming, CNC Machining, fixturing, and advanced 5-axis machining. All courses are designed with the use of Imperial units. Members of the Academy improve skills through repetition and the stacking of techniques. Each tutorial walks students through the entire manufacturing process step-by-step. With the Academy, a user can learn how to design, program, and machine complete parts to print specifications in the classroom or at home.

Benefits

TITANS of CNC Academy is completely free. Top-notch manufacturing industry sponsors back the Academy. The tutorials contain all necessary resources, including prints, models, tool libraries, setup sheets, and inspection reports. TITANS of CNC offers dozens of free certifications through the CNC EXPERT platform.

CAMINSTRUCTOR®

camInstructor®

What is it?

camInstructor provides unparalleled access to CNC programming courses and books that train you to operate and program CNC machinery utilizing the Mastercam software. Their curriculum offers a comprehensive classroom solution for Mastercam and CNC programming, allowing students to learn at their own pace. The courses include easy-to-follow step-by-step instructions with project-based lessons and all necessary teacher resources, PowerPoints, lesson plans, parts files, tests, and quizzes. All courses are available in Imperial units. Over 50,000 people have used camInstructor to learn Mastercam and CNC Programming. camInstrcutor can help whether you are looking to begin a lucrative career in CNC programming or want to strengthen your existing skills with Mastercam.

Benefits

camInstructor offers access to a live instructor that can be reached for assistance or with any questions. The online courses include the ability to track a student's progress. They also offer a comprehensive camInstructor Certification Program.
